A structure segregating the cover pool from novobanco balance sheet

- In order to segregate the cover pool from its balance sheet, novobanco has created a specific unit in all its operating systems for the Covered Bond Programme. This unit allows a separate accounting and an effective segregation of the cover portfolio backing the covered bonds to be issued from novobanco balance sheet.
- The assets registered within this unit form a segregated cover pool over which the holders of the covered bonds will have a special creditor privilege ("privilegio creditório"). All loans with +1-month in arrears are automatically removed from the cover pool and substituted with other performing loans, so the pool has no delinquencias.

A programme with only prime Portuguese residential mortgage loans...

... originated by novobanco compliant with the following eligibility criteria:

- First-lien mortgage of a property or lower-ranking mortgage, provided that the related higher-ranking mortgages are also included in the pool;
- Freely transferable loans by way of assignment under the laws of Portugal;
- Backed by residential property;
- Denominated in Euro;
- Property located in Portugal;
- Maximum current loan to value of 80%;
- No delinquent loans in the pool, i.e., loans with more than one month in arrears are removed from the cover pool;
- All mortgages loans have house insurance;
- Overall, all the loans included in the pool are compliant with the new Portuguese Covered Bond Framework

novobanco has a simple shareholder structure and a unique governance model within the Portuguese financial sector...

(1) as a result of the agreements celebrated between the Resolution Fund and the Shareholder Lone Star in the context of the sale of 75% of the shares of Novobanco, only the Resolution Fund will see its participation diluted with the conversion of the conversion rights; (2) Elected by the General Meeting upon a proposal of the General and Supervisory Board is consulted prior to any proposal of the Executive Board of Directors related to the appointment of the Company Secretary and Alternate Secretary. (4) The Monitoring Committee is composed of three members. The Monitoring Committee is an advisory body for the purposes of the Contingent Capital Agreement entered into between the Company and the Resolution Fund; (5) The Special Committees are composed of members of the General and Supervisory Board. The General and Supervisory Board sets up, appoints the members and approves the internal rules of the Special Committees

Robust ESG Governance and clear roadmap

novobanco deployed a robust governance model for its **Global Sustainability Framework**

- 1 The Global Sustainability Framework is supervised by our **GSB**, with our **EBD** taking direct responsibility for its active management
- Our appointed Chief Sustainability Officer ensures a clear and direct guidance on the topic day-to-day activities
- The Sustainability Steering safeguards the right cadence for implementing the ESG strategy, supervising our ESG KPI and KRI
- novobanco Policies and Roles & Responsibilities are up-to-date with our Global Sustainability Framework
- 5 Our **ESG Office** and **ESG PMO** manage the ESG program, with oversight over the multidisciplinary teams needed for the effort
- Our program roadmap is updated regularly to ensure transparency and effective control

- Next milestones 9
- Participate in planned ECB climate stress tests
- Ensure systematic integration of ESG risk analysis in credit process
- Improve **ESG data collection tools** in collaboration with our clients
- Update novobanco **portfolio emissions** disclosure after first release in '23
- Develop pathways for portfolio emissions aligned our climate ambition

The portuguese CB legal framework – key changes

The Portuguese Covered Bond Legal Framework

Decree-Law 31/2022 transposed in Portugal the Covered Bond Directive, the table below summarises some of the key changes.

•	, , , , , , , , , , , , , , , , , , ,
Extendable Maturity	Objective triggers need to be specified in the terms and conditions of the covered bonds
	The final maturity date of the covered bonds is determinable at all times
	 In the event of liquidation or resolution of the relevant credit institution, maturity extensions do not affect the ranking of holders of covered bonds or invert the sequencing of the relevant covered bond programme's original maturity schedule
Extendable Maturity Triggers	Revocation of the authorisation of the relevant credit institution issuing the covered bonds; or
	• Foreseeable or actual failure to pay the principal or interest amounts of the covered bonds due at the initial maturity date, that is not remediable within an established period of time in the terms of the relevant issue or the covered bond programme, not exceeding 10 business days.
Liquidity Buffer	The cover pool must include a liquidity buffer comprised of liquid assets (as determined in article 19 of the Legal Regime of Covered Bonds and article 16 of the Covered Bonds Directive) to cover all Net Liquidity Outflows accumulated over the next 180 days
	In the case of extendable maturity covered bonds, principal repayments will be considered due at the extended maturity date
Overcollateralization and Label	Minimum overcollateralization amount of 5% for the Premium Label
	Premium label used only if covered bonds meet the Covered Bond Directive and CRR
Cover Pool Monitor	Appointment on an independent Cover Pool Monitor (not the Issuer's auditor)
	Role and Duties of the Cover Pool Monitor: 1) verify on an ongoing basis the quality of the assets comprising the cover pool and compliance with the applicable requirements on eligibility of assets, including risk coverage and derivatives, composition and homogeneity of the cover pool; 2) verify the information provided to the holders of covered bonds; 3) produce an annual report with an assessment of the issuer's compliance with the requirements set out in the Portuguese
