2. RATINGS

The Notes to be issued have not been rated.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

4. REASONS FOR THE OFFER AND USE OF PROCEEDS

The value of the Notes, the payment of a coupon amount on a relevant interest payment date to a Noteholder, the payment of an automatic early redemption amount on a relevant automatic early redemption date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Notes is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of the underlying instrument is lower than or equal to a predefined barrier performance.

During the lifetime of the Notes, the market value of these Notes may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital. The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Key risks that are specific to the guarantor :

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

Any sale of the Notes prior to the scheduled maturity date will result in the loss of the full protection of the amount invested.

Certain exceptional circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that results in a total or partial loss of the amount invested.

Notes may be early redeemed automatically when the level of the Underlying(s) reaches a certain level. Investors will not benefit from the performance of the Underlying(s) subsequent to such event.

The market value of the Notes depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying(s) (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Notes and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of

the Underlying(s), and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The performance of the reference rate(s) is dependent on economic and political factors. Such factors could have a negative impact on the performance of the reference rate(s) and consequently on the value of the Notes. These factors can be expected to intensify in periods of financial turmoil.

WHY IS THIS PROSPECTUS BEING PRODUCED?

This prospectus is drawn up for the purposes of the public offer of the Notes.

Reasons for the offer and use of proceeds:

The net proceeds from each issue of Notes will be applied for the general financing purposes of the Société Générale Group, which include making a profit.

Estimated net proceeds: Not Applicable

Underwriting: There is an underwriting agreement on a firm commitment basis with: Société Générale

Interests of the individual and natural persons of the issuance/offer :

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Société Générale will ensure the roles of provider

of hedging instruments to the Issuer of the Notes and Calculation Agent of the Notes.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Noteholders on the other hand cannot be excluded. Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Notes or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

Principais riscos específicos do garante:

Devido ao papel da Société Générale como garante e contraparte das transações de cobertura de risco do Emitente, os investidores estão essencialmente expostos ao risco de crédito da Société Générale e não têm qualquer recurso contra o Emitente em caso de incumprimento por parte deste.

QUAIS SÃO OS PRINCIPAIS RISCOS ESPECÍFICOS DOS VALORES MOBILIÁRIOS?

Qualquer venda das Obrigações antes da Data de Reembolso prevista implicará a perda da proteção total do capital investido.

Certas circunstâncias excecionais podem ter um efeito negativo na liquidez do produto. O investidor poderá não conseguir vender o produto facilmente ou poderá ter de o vender a um preço que resulte numa perda total ou parcial do montante investido.

As Obrigações podem ser reembolsadas automaticamente quando o(s) Ativo(s) Subjacente(s) atinjam determinado nível. Assim, os investidores não beneficiarão do desempenho do(s) Ativo(s) Subjacente(s) após o reembolso antecipado automático.

O valor de mercado das Obrigações depende da evolução dos parâmetros de mercado no momento da saída (nível de preços do(s) Ativo(s) Subjacente(s), taxas de juro, volatilidade e *spreads* de crédito) e pode, portanto, resultar num risco de perda total ou parcial do montante inicialmente investido.

Eventos não relacionados com o(s) Ativo(s) Subjacente(s) (por exemplo, alteração da lei, incluindo alterações fiscais, força maior, e número de valores mobiliários em circulação) podem levar ao reembolso antecipado das Obrigações e, por conseguinte, à perda total ou parcial do montante investido.

Eventos que afetem o(s) Ativo(s) Subjacente(s) ou operações de cobertura de risco podem levar a ajustes, desindexação, substituição do(s) Ativo(s) Subjacente(s), ou reembolso antecipado e, conseqüentemente, a perdas do montante investido, inclusive no caso de proteção do capital.

Se a moeda das principais atividades do investidor for diferente da moeda do produto, o investidor está exposto ao risco cambial, especialmente no caso de controlos cambiais, o que pode reduzir o montante investido.

O desempenho da(s) taxa(s) de referência depende de fatores económicos e políticos. Tais fatores podem ter um impacto negativo no desempenho da(s) taxa(s) de referência e, conseqüentemente, no valor das Obrigações. É expectável que esses fatores se intensifiquem em períodos de instabilidade financeira.

Interesses das pessoas singulares e coletivas envolvidas na emissão/oferta:

Com exceção das comissões, se existirem, a pagar ao Intermediário Financeiro, e tanto quanto é do conhecimento do Emitente, nenhuma pessoa envolvida na emissão das Obrigações tem interesses relevantes na oferta. O Intermediário Financeiro e os seus afiliados realizaram, e podem vir a realizar no futuro, transações bancárias de investimento e/ou comerciais com o Emitente e as suas afiliadas, participaram, e poderão no futuro participar, em transações de banca de investimento e/ou de banca comercial com o Emitente e os seus afiliados no decurso normal da sua atividade e poderão prestar aos mesmos outros serviços. A Société Générale desempenhará funções de fornecedor de instrumentos de cobertura de risco ao Emitente das Obrigações e de Agente de Cálculo das Obrigações.

Não pode ser afastada a possibilidade de existirem conflitos de interesses emergentes, por um lado, das diferentes funções desempenhadas pela Société Générale e, por outro lado, entre os interesses da Société Générale no desempenho dessas funções e os interesses dos Obrigacionistas. Adicionalmente, dadas as atividades bancárias da Société Générale, podem surgir conflitos entre os interesses da Société Générale agindo nas referidas funções (incluindo relações comerciais com os emitentes dos instrumentos financeiros subjacentes às Obrigações ou a posse de informação não pública em relação aos mesmos) e os dos Obrigacionistas. Por último, as atividades da Société Générale sobre o(s) instrumento(s) financeiro(s) subjacente(s), por conta própria, ou por conta dos seus clientes, ou o estabelecimento de transações de cobertura de risco, podem também ter um impacto no preço destes instrumentos e na sua liquidez, podendo assim entrar em conflito com os interesses dos Obrigacionistas.
